K. Yamamoto (Japan)

Officers and Council Members of the IAMG

President: D. F. Merriam (USA)
Past President: R. A. Reyment (Sweden)
Vice President: G. W. Hill (Australia)
Secretary General: E. H. T. Whitten (USA)
Treasurers: J. C. Davis (USA)
V. Neměc (Czechoslovakia)
Editor-in-Chief: R. B. McCammon (USA)

Council Members:
F. P. Agterberg (Canada)
K. L. Burns (Australia)
G. de Marsily (France)
D. Gill (Israel)
D. Hawkins (South Africa)
R. J. Howarth (UK)
W. Schwarzacher (UK)

Published bimonthly at Osney Mead, Oxford, England, for the International Association for Mathematical Geology by Plenum Publishing Corporation, 227 West 17th Street, New York, N.Y. 10011. In 1977, Volume 9 (6 issues) will be published. Subscription orders should be addressed to the publisher. *Journal of the International Association for Mathematical Geology* is abstracted or indexed in Applied Mechanics Reviews, Engineering Index, Geological Abstracts, Current Contents, Current Index to Statistics, and Referativnyi Zhurnal.

© 1977 Plenum Publishing Corporation.

Subscription price:

Volume 9, 1977 (6 issues) $69.50. Outside the U.S. add $2.70 for postage and handling. Prices somewhat higher outside the U.S. A special price is available to members of the Association.

Volume 10, 1978 (6 issues) $78.00 Outside the U.S. add $2.70 for handling and mailing. Prices somewhat higher outside the U.S. A special price is available to members of the Association.

Second-class postage paid at Jamaica, N.Y. 11431.

Printed in Great Britain.

Contents

Vol. 9, No. 1 **February 1977**

Editor's Note 1

Optical Processing of Structural Contour Maps 3
G. S. Srivastava (USA)

A Stochastic Model of Fractional Crystallization and Its Application to the Japanese Geosynclinal Basalt 39
I. Kawabe (Japan)

Locating Maximum Variance Segments in Sequential Data 55
T. R. Bement (USA) and M. S. Waterman (USA)

On the Misuse of Regression in Earth Science 63
D. M. Mark (Canada) and M. Church (Canada)

Multivariate Analysis of Biogenic Constituents in Recent Sediments Off Ras Burka, Gulf of Elat, Red Sea 77
J. Erez (Israel) and D. Gill (Israel)

Variograms and Their Role in Interpretation of Soft Iron Ore Types 99
I. Dutta (India) and S. V. L. N. Rao (India)

Vol. 9, No. 2 **April 1977**

The Shape of Pebbles 113
F. J. Bloore (UK)

A Method for Testing the Distinctness of Clusters: A Test of the Disjunction of Two Clusters in Euclidean Space as Measured by Their Overlap 123
P. H. A. Sneath (UK)

Design of Geological Data Systems for Developing Nations 145
D. Gill (Israel), J. Beylin (Israel), S. Boehm (Israel), Y. Frenkel (Israel), and E. Rosenthal (Israel)

SHORT NOTE

Fourier Analysis of the Catawba Mountain Knolls, Roanoke County, Virginia 159
J. T. Hanley (USA)

REVIEWS 199

Vol. 9, No. 3 **June 1977**

The International Geological Correlation Program (IGCP) Project 98, "Standards for Computer Applications in Resource Studies," held at Loen, Norway, September 27–October 1, 1976

Preface 205

Introduction to the Conference on Resource Assessment Techniques 207
W. W. Hutchison (Canada)

Summary of Resource Assessment Methods, Resulting from the International Geological Correlation Program Project 98 211
S. M. Cargill (USA), R. F. Meyer (USA), D. D. Picklyk (Canada). and F. Urquidi (Bolivia)

Guidelines for International Data Collection and Resource Assessments and Analyses 221
A. L. Clark (USA)

Mineral Resource Appraisal and Mineral Deposits Computer Files in the Geological Survey of Canada 235
O. R. Eckstrand (Canada)

Exploration Geochemistry in Resource Appraisal 245
R. G. Garrett (Canada)

Standards for Multilateral and Worldwide Exchange of Geothermal Data 259
J. J. Herr (USA), S. L. Phillips (USA), S. R. Schwartz (USA), and T. G. Trippe (USA)

The Use of G-EXEC for Resource Analysis 265
K. G. Jefferey (UK) and E. M. Gill (UK)

Reserve Classification of Identified Nonfuel Resources by the Bureau of Mines Minerals Availability System 273
G. Kingston (USA)

Petroleum Resource Data Systems 281
R. F. Meyer (USA)

Requirements of the Data to Be Used for Resource Appraisal 301
D. D. Picklyk (Canada)

SHORT NOTES

Weighted Characteristic Analysis of Spatially Dependent Mineral Deposit Data 309
J. M. Botbol (USA), R. Sinding-Larsen (Norway), R. B. McCammon (USA), and G. B. Gott (USA)

Geostatistical Mineral Resources Appraisal 313
M. Dagbert (Canada) and M. David (Canada)

Establishing a National Ore Date File in Finland 319
G. Gaal (Finland), M. Tontti (Finland), H. Autio (Finland), and M. Lehtonen (Finland)

Application of Computer Techniques for Tasks of the East African Mineral Resources Development Centre 327
G. Gabert (*West Germany*)

Uranium Resource Information File 329
M. V. Hansen (*Austria*)

Resource Inventory Methods in India 331
N. Sen (*India*) *and T. N. Basu* (*India*)

Mineral Property Valuation Under the Indonesian Mining Law 333
S. Slamet (*Indonesia*)

Vol. 9, No. 4 **August 1977**

Symposium 116.3, "Quantitative Strategy for Exploration," held as part of the 25th International Geological Congress, Sydney, Australia, August 1976

Introduction to Special Issue on Quantitative Exploration 341

Discriminant Analysis as a Method of Predicting Mineral Occurrence Potentials in Central Norway 343
A. E. Prelat (*Norway*)

Target Intersection Probabilities for Parallel-Line and Continuous-Grid Types of Search 369
R. B. McCammon (*USA*)

Zipf's Law—An Aid to Resource Inventory Prediction in Partially Explored Areas 383
N. J. Rowlands (*Australia*) *and D. Sampey* (*Australia*)

Trend-Surface Analysis as an Aid in Exploration for Mississippi Valley-Type Ore Deposits 393
J. S. Trapp (*USA*) *and J. D. Rockaway* (*USA*)

Estimation of the Probability of Success in Petroleum Exploration 409
J. C Davis (*USA*)

The Impact of Assumptions About Oil Exploration on Projections of Long-Range Energy Supplies in the United States 429
L. A. Rapoport (USA) and G. C. Grender (USA)

Integrated Oil Exploration Decision Systems 441
J. W. Harbaugh (USA)

Vol. 9, No. 5 **October 1977**

President's Address 451
R. A. Reyment (Sweden)

Statistical Theories of Crack Propagation 455
D. Vere-Jones (New Zealand)

The Algebraic Evaluation of Two-Dimensional Finite Strain Rosettes 483
D. J. Sanderson (Northern Ireland)

Sampling Variation of Principal Components 497
J. Trochimczyk (USA) and F. Chayes (USA)

Evaluation of Distortion of Residuals in Trend Surface Analysis by Clustered Data 507
B. R. Shaw (USA)

A Mathematical Model to Investigate Distortions of Correlation Coefficients in Closed Arrays 519
W. Skala (West Germany)

Interpolation and Trend Analysis: Two Geohydrological Applications 529
L. Torelli (Italy) and P. Tomasi (Italy)

Vol. 9, No. 6 **December 1977**

Examination of the Chayes–Kruskal Procedure for Testing Correlations Between Proportions 543
J. O. Kork (USA)

Kriging in Terms of Projections 563
A. G. Journel (France)

Mathematical Formalization of Stratigraphic Terminology 587
I. Dienes (Hungary) and C. J. Mann (USA)

On the Stereology of a Spherical Segment of One Base, with Applications to the Petrography of "Cleavage Domes" in a Metagreywacke 605
C. C. Ferguson (UK)

Abundance Coefficients, a New Method for Measuring Microorganism Relative Abundance 619
R. M. Forester (USA)

A Computer Method to Calculate the Convolution of Statistical Distributions 635
T. A. Jones (USA)
